## Rare and Undiagnosed Diseases Study (RUDY)

**Information to be read and discussed  
with younger children**

**We would like to ask for your help  
with our project.**

**We know that you have a rare disease  
or you have someone in your family who  
has a rare disease.**

**Very few children have one of  
these rare conditions.**

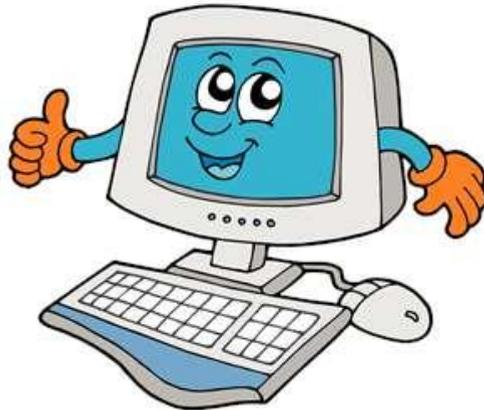

We want to learn more about what  
life is like for you.

Then we will be able to  
help other children who have it.

We would like to ask you and your mummy and daddy some questions on the computer.

If you don't want to do this - just say no thank you!

If you have any questions you can ask your Mum, Dad or the person who looks after you or one of the people taking care of you at the hospital.

**Thank you for reading this.**
